PROJECTS

E-Commerce Website- *A platform to easy sell and purchase items*

This is a website designed using html, css and javascript which includes features like add to cart and various others which gives you an amazing shopping experience

Bootstrap Landing Page- *A landing page to explore Bootstrap*

This page was designed exclusively using Bootstrap as an assignment which covers use of elementary features provided by the html, css and js framework

Portfolio - *A representation of My work, skills and Projects*

The portfolio website I designed as a front end developer using html, css and js. This is an elegant website yet simple page which represents my skills, experiences and projects.

Human Face Detection- *Using WebCam to detect Human face*

This project focuses on Transfer Learning and Object Detection in real time. The model uses a webcam to detect any object in real time.

Respected Sir/Madam

As my CV shows , I have always been a meritorious and creative student. I would be very happy to discuss how I can be of use to your company as its member. It will be a great place to learn and apply my thoughts and talent in a way which will be beneficial for all and to explore in the corporate world. Hope to be the part of this soon.

With best regards

Yours faithfull

Syeda Sana
